

# JAPANESE SMALLER COMPANIES FUND

Class A2 HEUR ISIN: LU1572378708

A sub-fund of Janus Henderson Horizon Fund, a SICAV managed by Henderson Management S.A.

## Objectives and investment policy

### Objective

The Fund aims to provide capital growth.

### Investment policy

The Fund invests at least two-thirds of its total assets in:

- Equity or equity related securities of smaller Japanese companies in any industry

The Fund may also invest in:

- Money market instruments
- Bank deposits

In choosing investments, the investment manager looks for stocks that appear to be undervalued and appear to have greater potential to rise in price over the long-term than is reflected in current market prices.

The Fund may use derivatives to reduce risk or to manage the Fund more efficiently.

**Recommendation:** this Fund may not be appropriate for investors who plan to withdraw their money within the short term.

This Fund is designed to be used only as one component in several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

**Fund currency** JPY **Share class currency** EUR

### Terms to understand

**Derivatives** Financial instruments whose value is linked to the price of an underlying asset (eg indices, rates, share prices).

**Money market instruments** A short term debt instrument, issued by a government or company as a way to raise money. Generally considered a cash equivalent.

**Shares / Equities** Securities that represent fractional ownership in a company.

**Volatility** How sharply the Fund's share price has gone up and down over a period, generally several years.

*You can buy, sell or switch shares in the Fund on any business day, as defined within the "Definitions" Section of the Fund's prospectus.*

*This share class accumulates gross income and capital gains which is retained within the price of the share class.*

## Risk and reward profile

◆ Potentially lower reward			Potentially higher reward ◆			
◆ Lower risk			Higher risk ◆			
1	2	3	4	5	6	7

The value of an investment and any income from it can go up or down. When you sell your shares they may be worth less than you paid for them.

The risk/reward rating above is based on medium-term volatility. In the future, the Fund's actual volatility could be higher or lower and its rated risk/reward level could change.

The share class appears at 6 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in share price in the past 5 years than those in lower categories. The lowest category does not mean risk free.

The rating does not reflect the possible effects of unusual market conditions or large unpredictable events. Under normal market conditions the following risks may apply:

**Active management risk** Active management techniques that have worked well in normal market conditions could prove ineffective or detrimental at other times.

**Counterparty risk** The Fund could lose money if a counterparty with which it trades becomes unwilling or unable to meet its obligations to the Fund.

**Country or region risk** If a Fund has a high exposure to a particular country or geographical region it carries a higher level of risk than a Fund which is more broadly diversified.

**Derivatives risk** Derivatives use exposes the Fund to risks different from, and potentially greater than, the risks associated with investing directly in securities and may therefore result in additional loss, which could be significantly greater than the cost of the derivative.

**Equities risk** Shares can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result.

**Hedging risk** If the Fund or a specific share class of the Fund seeks to reduce risks (such as exchange rate movements), the measures designed to do so may be ineffective, unavailable or detrimental.

**Smaller companies risk** Shares of small and mid-size companies can be more volatile than shares of larger companies, and at times it may be difficult to value or to sell shares at desired times and prices, increasing the risk of losses.

The full list of the Fund's risks are contained in the "Investment and Risk Considerations" section of the Fund's prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

### One-off charges taken before or after you invest\*

Entry Charge	5.00%
Exit Charge	0.00%**
Switch Charge (applicable within this SICAV)	1.00%

\* The charges shown are maximum figures. In some cases you may pay less.

\*\* Subject to a charge of up to 1.00% where the Manager suspects excessive trading by an investor (and specifically on subscriptions held for less than 90 days).

### Charges taken from the Fund over a year

Ongoing Charges	1.95%
-----------------	-------

The ongoing charges are based on last year's expenses for the year ending 30 June 2017. Ongoing charges may vary from year to year.

The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another fund.

### Charges taken from the Fund under certain specific conditions

Performance fee	10.00%*
-----------------	---------

\*10% of any returns that, subject to a High Water Mark, the Fund achieves above the Russell/Nomura Small Cap Index. The actual amount charged in the Fund's last financial year amounted to 3.10%.

For more information about charges, please see the "Charges" section of the Fund's prospectus.
