

GLOBAL EQUITY FUND

Acc ISIN: GB0007018194

Janus Henderson
INVESTORS

A unit trust, managed by Henderson Investment Funds Limited.

Objectives and investment policy

Objective

The Fund aims to provide capital growth that is above the average growth expected from global equity markets.

Investment policy

The Fund invests principally in:

- A concentrated portfolio of shares of companies, in any industry and country, with a bias to companies that the investment manager considers to offer sustainably high levels of growth

The Fund may also invest in:

- Collective Investment Schemes
- Money market instruments
- Cash and cash equivalents
- Bank deposits

In choosing investments, the investment manager looks for companies that appear to have greater potential to rise in price over the long term than is reflected in current market prices.

The Fund may use derivatives to reduce risk or to manage the Fund more efficiently.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

This Fund is designed to be used only as one component in several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

Fund currency GBP **Share class currency** GBP

Terms to understand

Money market instruments A short term debt instrument, issued by a government or company as a way to raise money. Generally considered a cash equivalent.

Shares / Equities Securities that represent fractional ownership in a company.

Volatility How sharply the Fund's share price has gone up and down over a period, generally several years.

Derivatives Financial instruments whose value is linked to the price of an underlying asset (eg indices, rates, share prices).

You can buy, sell or switch units in the Fund on any business day, as defined within the "Definitions" Section of the Fund's prospectus.

The Fund offers accumulation units (units in which net income is retained within the price).

Risk and reward profile

◆ Potentially lower reward			Potentially higher reward ◆			
◆ Lower risk			Higher risk ◆			
1	2	3	4	5	6	7

The value of an investment and any income from it can go up or down. When you sell your shares they may be worth less than you paid for them.

The risk/reward rating above is based on medium-term volatility. In the future, the Fund's actual volatility could be higher or lower and its rated risk/reward level could change.

The share class appears at 5 out of 7. Share classes in higher categories have shown greater and/or more frequent variations in share price in the past 5 years than those in lower categories. The lowest category does not mean risk free.

The rating does not reflect the possible effects of unusual market conditions or large unpredictable events. Under normal market conditions the following risks may apply:

Equities Shares can lose value rapidly, and typically involve higher risks than bonds or money market instruments. The value of your investment may fall as a result.

Concentration This Fund may have a particularly concentrated portfolio relative to its investment universe or other funds in its sector. An adverse event impacting even a small number of holdings could create significant volatility or losses for the Fund.

Derivatives The Fund may use derivatives with the aim of reducing risk or managing the portfolio more efficiently. However this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

Exchange Rates If the Fund holds assets in currencies other than the base currency of the Fund or you invest in a share/unit class of a different currency to the Fund (unless 'hedged'), the value of your investment may be impacted by changes in exchange rates.

Liquidity Securities within the Fund could become hard to value or to sell at a desired time and price, especially in extreme market conditions when asset prices may be falling, increasing the risk of investment losses.

The full list of the Fund's risks are contained in the "Risk Warnings" section of the Fund's prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

One-off charges taken before or after you invest*

Entry Charge 4.25%

Exit Charge 0.00%**

* The charges shown are maximum figures. In some cases you may pay less.

** Subject to a charge of up to 3.00% where the Manager suspects excessive trading by an investor (and specifically on subscriptions held for less than 90 days).

Charges taken from the Fund over a year

Ongoing Charges 2.09%

The ongoing charges are based on last year's expenses for the year ending 31 May 2018. Ongoing charges may vary from year to year.

The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another fund.

For more information about charges, please see the "Charges" section of the Fund's prospectus.

Past performance

Warning: 10 May 2010. The Fund changed its name and objective. The past performance shown before this change was therefore achieved under circumstances that no longer apply.

The past performance is calculated in GBP.

The Fund and the units were launched in February 1982.

Past performance is not a guide to future performance.

The past performance shown in the chart takes into account all charges except entry charges.

Practical information

Trustee: NatWest Trustee and Depositary Services Limited.

To obtain more information: This Key Investor Information Document may not contain all the information you need.

For the last published price of units in the Fund, or to obtain the annual/semi-annual report, please visit www.janushenderson.com. Documents are available free of charge in English.
