

# Henderson launches Global Fixed Interest Total Return Fund

22 July 2014

## Henderson continues to grow in Australia with launch of second flagship fund

Henderson Global Investors Australia has continued the expansion of its Australian business with the launch of the **Henderson Global Fixed Interest Total Return Fund**. This is Henderson's second flagship fund in Australia following the launch of the Henderson Global Equity Fund in November 2013. The new fund is managed by Henderson Global Investors' Fixed Income Investment Strategy Group, led by Phil Apel.

Henderson Australia's Managing Director, **Rob Adams**, commented: *"This is another key milestone for Henderson in Australia. We are committed to bringing high quality, contemporary offers to the Australian market, and this new fund certainly ticks all the right boxes. Phil Apel and his team are recognised as world-class managers, with proven skills across all types of fixed interest instruments. The Henderson Global Fixed Interest Total Return Fund allows them to navigate across fixed interest markets with the ability to take views on interest rates, credit and loans while seeking to protect client capital."*

Henderson Head of Fixed Income, **Phil Apel**, added: *"Rather than just trying to outperform a benchmark, managing this fund allows you to wake up each morning and ask what are the best fixed interest investments in the world and how can we build a robust portfolio for our clients. We believe that this dynamic approach to fixed interest investing provides a strong and contemporary solution and have successfully utilised this investment style for clients in Europe, the United Kingdom and United States."*

The fund follows a comprehensive investment process that includes top-down asset allocation supported by Henderson's Investment Strategy Group – a team of seven senior fixed interest specialists – which leverages a total of 58 fixed interest experts in a bottom-up, 'best ideas' approach to security selection. The Henderson Fixed Income team managed \$30.9 billion in assets as at 31 March 2014.
